# SANTHOSH KUMAR P

Thiruvallur, Tamil Nadu, India | +91 9342499810 | santoosam2004@gmail.com
LinkedIn | GitHub | Portfolio

## Professional Summary

B.Tech graduate in Artificial Intelligence & Data Science with hands-on experience in Python, SQL, Machine Learning, Data Analytics, Power BI, and Data Visualization. Skilled in data cleaning, exploratory data analysis, predictive modeling, NLP, and dashboard development. Experienced in developing AI-powered applications and analyzing real-world datasets to generate actionable, data-driven insights.

## Technical Skills

| | |
|---|---|
| **Programming** | Python, SQL, R |
| **Machine Learning** | TensorFlow, NLP, Sentiment Analysis, Data Preprocessing, EDA, Statistical Analysis |
| **Libraries** | Pandas, NumPy, Matplotlib, FastAPI |
| **Visualization** | MS Excel, Power BI, Dashboard Development |
| **Databases** | MySQL, MongoDB , PostgreSQL , Snowflake |
| **Cloud** | Google Cloud Platform (GCP) |
| **Web Development** | Django, React, HTML, CSS, JavaScript |
| **Tools & OS** | Git, GitHub, Linux |

## Internship

**Data Science Intern** Jul 2025 – Aug 2025
*Luminant Global Solutions*

- Developed data-driven solutions using Python, SQL, Machine Learning, Snowflake, and Google Cloud technologies.
- Gained hands-on exposure to Informatica and Reltio Master Data Management for data integration and management.
- Strengthened algorithmic problem-solving through HackerRank and LeetCode coding challenges.

**Advanced Python Trainee** Apr 2026 – Aug 2026
*FITA Academy*

- Developed proficiency in advanced Python programming, Object-Oriented Programming (OOP), data structures, and exception handling.
- Worked with Python libraries for data analysis, automation, and problem-solving.
- Built practical Python applications while improving coding, debugging, and logical problem-solving skills.

## Projects

**Fashion Trend Prediction** GitHub - Repo
*Machine Learning, Python, NLP, Sentiment Analysis,FastAPI*

- Built an AI-powered fashion trend prediction system using Machine Learning and social media analytics.
- Analyzed runway and online fashion datasets to identify emerging trends and customer preferences.

**NIFTY 50 Stock Market Analysis**
*Python, Pandas, NumPy, Power BI, Excel, Financial Data Analysis*

- Analyzed historical NIFTY 50 stock data using Python, Pandas, and NumPy for data cleaning, exploratory analysis, return analysis, volatility assessment, and trend identification.
- Developed Power BI dashboards to visualize stock performance, moving averages, returns, volatility, and sector-wise trends for data-driven financial analysis.

**Geo-Location-Based Job Discovery System** GitHub - Repo
*Python, SQL, NLP, GIS, PostgreSQL*

- Developed an AI-powered job discovery platform integrating NLP and geospatial technologies for location-aware job matching.
- Implemented personalized job recommendations based on candidate preferences and geographic proximity.

## Education

**Prathyusha Engineering College** Nov 2022 – May 2026
B.Tech in Artificial Intelligence & Data Science CGPA: 8.0/10

**CSI Andrew's H.R Secondary School** 2022
Higher Secondary Education (Class XII) 79%

## Certifications

MySQL Fundamentals (MySQL)
MongoDB Fundamentals
Machine Learning (Google Developer)
Data Analytics with Python (NPTEL)
Data Science (Cognitive Class)
Google Cloud Skill Boost
Informatica Fundamentals
Data Cloud Management (Reltio)
Snowflake Engineer
